### ORIGIN OF DRAGON BOAT FESTIVAL

#### Enthusiasm Displayed In Races Yesterday

The Dragon Boat Festival, one of the most interesting of Chinese festivals, which falls on the fifth day of the fifth moon (lunar calendar), was again celebrated yesterday by the local Chinese community in traditional style.

Despite the decrees of the Nanking Nationalist Government and other efforts to stamp out what the reformers in China term "old superstition", the Chinese in Canton and all other provinces of China celebrated the Dragon Boat Festival with great enthusiasm than in previous years.

No doubt, this patriotic fervour of the people has been intensified by the peaceful unification of China, the courageous defence of the North East and North West territories against foreign invasion, and the "New Spirit of Nationalism", which has been instilled in the minds of the people and which pervades the whole country.

All the native banks and leading stores and public schools were closed for the day, while the usual dragon boat races were held in

nearly every river of the Canton delta districts.

In Hong Kong some exciting races were witnessed by large and enthusiastic crowds of spectators at Aberdeen, North Point, West Point and the New Territories, where a number of gaily beflagged dragon boats participated.

Apart from the prizes and banners for the winners of the races, great interest was taken in them by the spectators on account of the "side bets".

## H. K. Sweltered Yesterday

Hong Kong sweltered yesterday! The report of the Royal Observatory issued yesterday morning disclosed that at 6 a.m. the temperature was 83 degrees and four hours later it soared to 87.

At noon there was no change in the temperature but the heat became greater during the afternoon and the highest temperature for the day—registered at the Royal Observatory was 89 degrees at 2 p.m.

By 4 p.m. the temperature decreased to 86, one degree below what it was at 10 o'clock in the morning.

Swimming picnics were the order of the day. Nearly all foreign residents and the vast majority of the Chinese population wended their way to the seaside resorts to escape the city heat and enjoy the cool waters on the shores of Repulse Bay, North Point, Castle Peak and other bathing beaches on the Island, mainland and in the New Territories.

#### TRAMS PACKED

Shortly after luncheon bathing parties started off for the beaches. Trams and buses for North Point and Shaikwan were packed to capacity throughout the after-

noon conveying Chinese bathers to the popular bathing Clubs in the Eastern district of the city. The waters surrounding the Clubs were swarmed with men, women, girls and boys, all enjoying themselves to the full. Some took their swimming leisurely, others dived almost incessantly from the rafts between the piers, while those who sought rest chose to bask in the sun on the beach with a towel covering for their heads.

At Repulse Bay there was also a mass of humanity covering the length and breadth of the beach. The Lido Lady provided bathers with full measure of fun and enjoyment.

Launch picnics were also in abundance, as was the order on Saturday.

#### DRAGON BOATS

At North Point yesterday, amid scenes of intense excitement the dragon boats (one from Shaikwan and one from Kowloon City) gave an exhibition display to the beach enthusiasts from 1.30 to 3.30 p.m. after which prizes were distributed to the crews by the Vice-Chairman of the Hong Kong Chinese Civil Servants' Club, Mr. Leung Kwok-tai. The presentation took the form of two beautifully engraved silver cups.

### CEDING OF THE UKRAINE TO GERMANY

#### STARTLING ALLEGATIONS AGAINST EXECUTED RED ARMY LEADERS

MOSCOW, JUNE 13. THE FACT THAT THE EXECUTED RED ARMY LEADERS PLANNED THE MURDER OF SAGE TO THE RED ARMY ISSUED BY THE MINISTER OF DEFENCE, GENERAL VOROSHILOV, WHO ANNOUNCES THAT AN EXTRAORDINARY SESSION OF THE GOVERNMENT AND SOVIET WAR COUNCIL WAS HELD FROM JUNE 1 TO 4 AT WHICH HE SUBMITTED A REPORT CONCERNING THE TREASONOUS COUNTER-REVOLUTIONARY MILITARY FASCIST ORGANISATION WHICH WAS UNCOVERED BY THE COMMISSARIAT OF INTERNAL AFFAIRS.

GENERAL VOROSHILOV Soviet War Minister, who again makes startling allegations.

General Voroshilov alleges that the executed men sold the information to a Fascist State. They made efforts to expedite an anti-Soviet war, planned sabotage arrangements for supply of materials to the front in wartime, seize power, and cede the Ukraine to Germany.

The message of Gen. Voroshilov concludes by urging renewed devotion and loyalty to the Army in order to liquidate the damage done by traitors.

#### Improvement In Storage

According to the Water Returns, Hong Kong's reservoirs benefited by nearly 1,500 million gallons as a result of the heavy rains during May, but as consumption during the month reached 711,000,000 gallons the improvement in storage at the month's end was just under 800,000,000 gallons.

Total storage on the island was 1,143,000,000 gallons compared with 693,000,000 gallons on May 1, and 1,082,000,000 on June 1 last year.

### BISHOP'S EPISCOPAL CONSECRATION

#### XIth Anniversary Of Mgr. Valtorta

The Catholic community of Hong Kong devised a new and genial means of celebrating the XIth Anniversary of the Episcopal Consecration of their Bishop, Mgr. H. Valtorta, by a pilgrimage to Tai-O, Lantau Island, where His Lordship spent yesterday in connection with the blessing of the newly built Chapel of the Sacred Heart.

The pilgrimage was organised by the Active Service Unit of St. Teresa's Chinese Young Men's Society and was warmly supported by the Catholic community.

In spite of the early hour and threatening rain, over 300 pilgrims were assembled at the two Government piers in Kowloon and Hong Kong at 6.30 yesterday morning when they chartered the big Cheung Chow ferry launch, s.s. Sunchow, for Tai-O.

As soon as the boat left the harbour, Mass was celebrated by Rev. Fr. A. Feroldi, Rector of the local Seminary.

**OBJECT OF THE PILGRIMAGE** Rev. Fr. Gallagher delivered a most impressive sermon explaining the object of the pilgrimage, in the course of which he said:

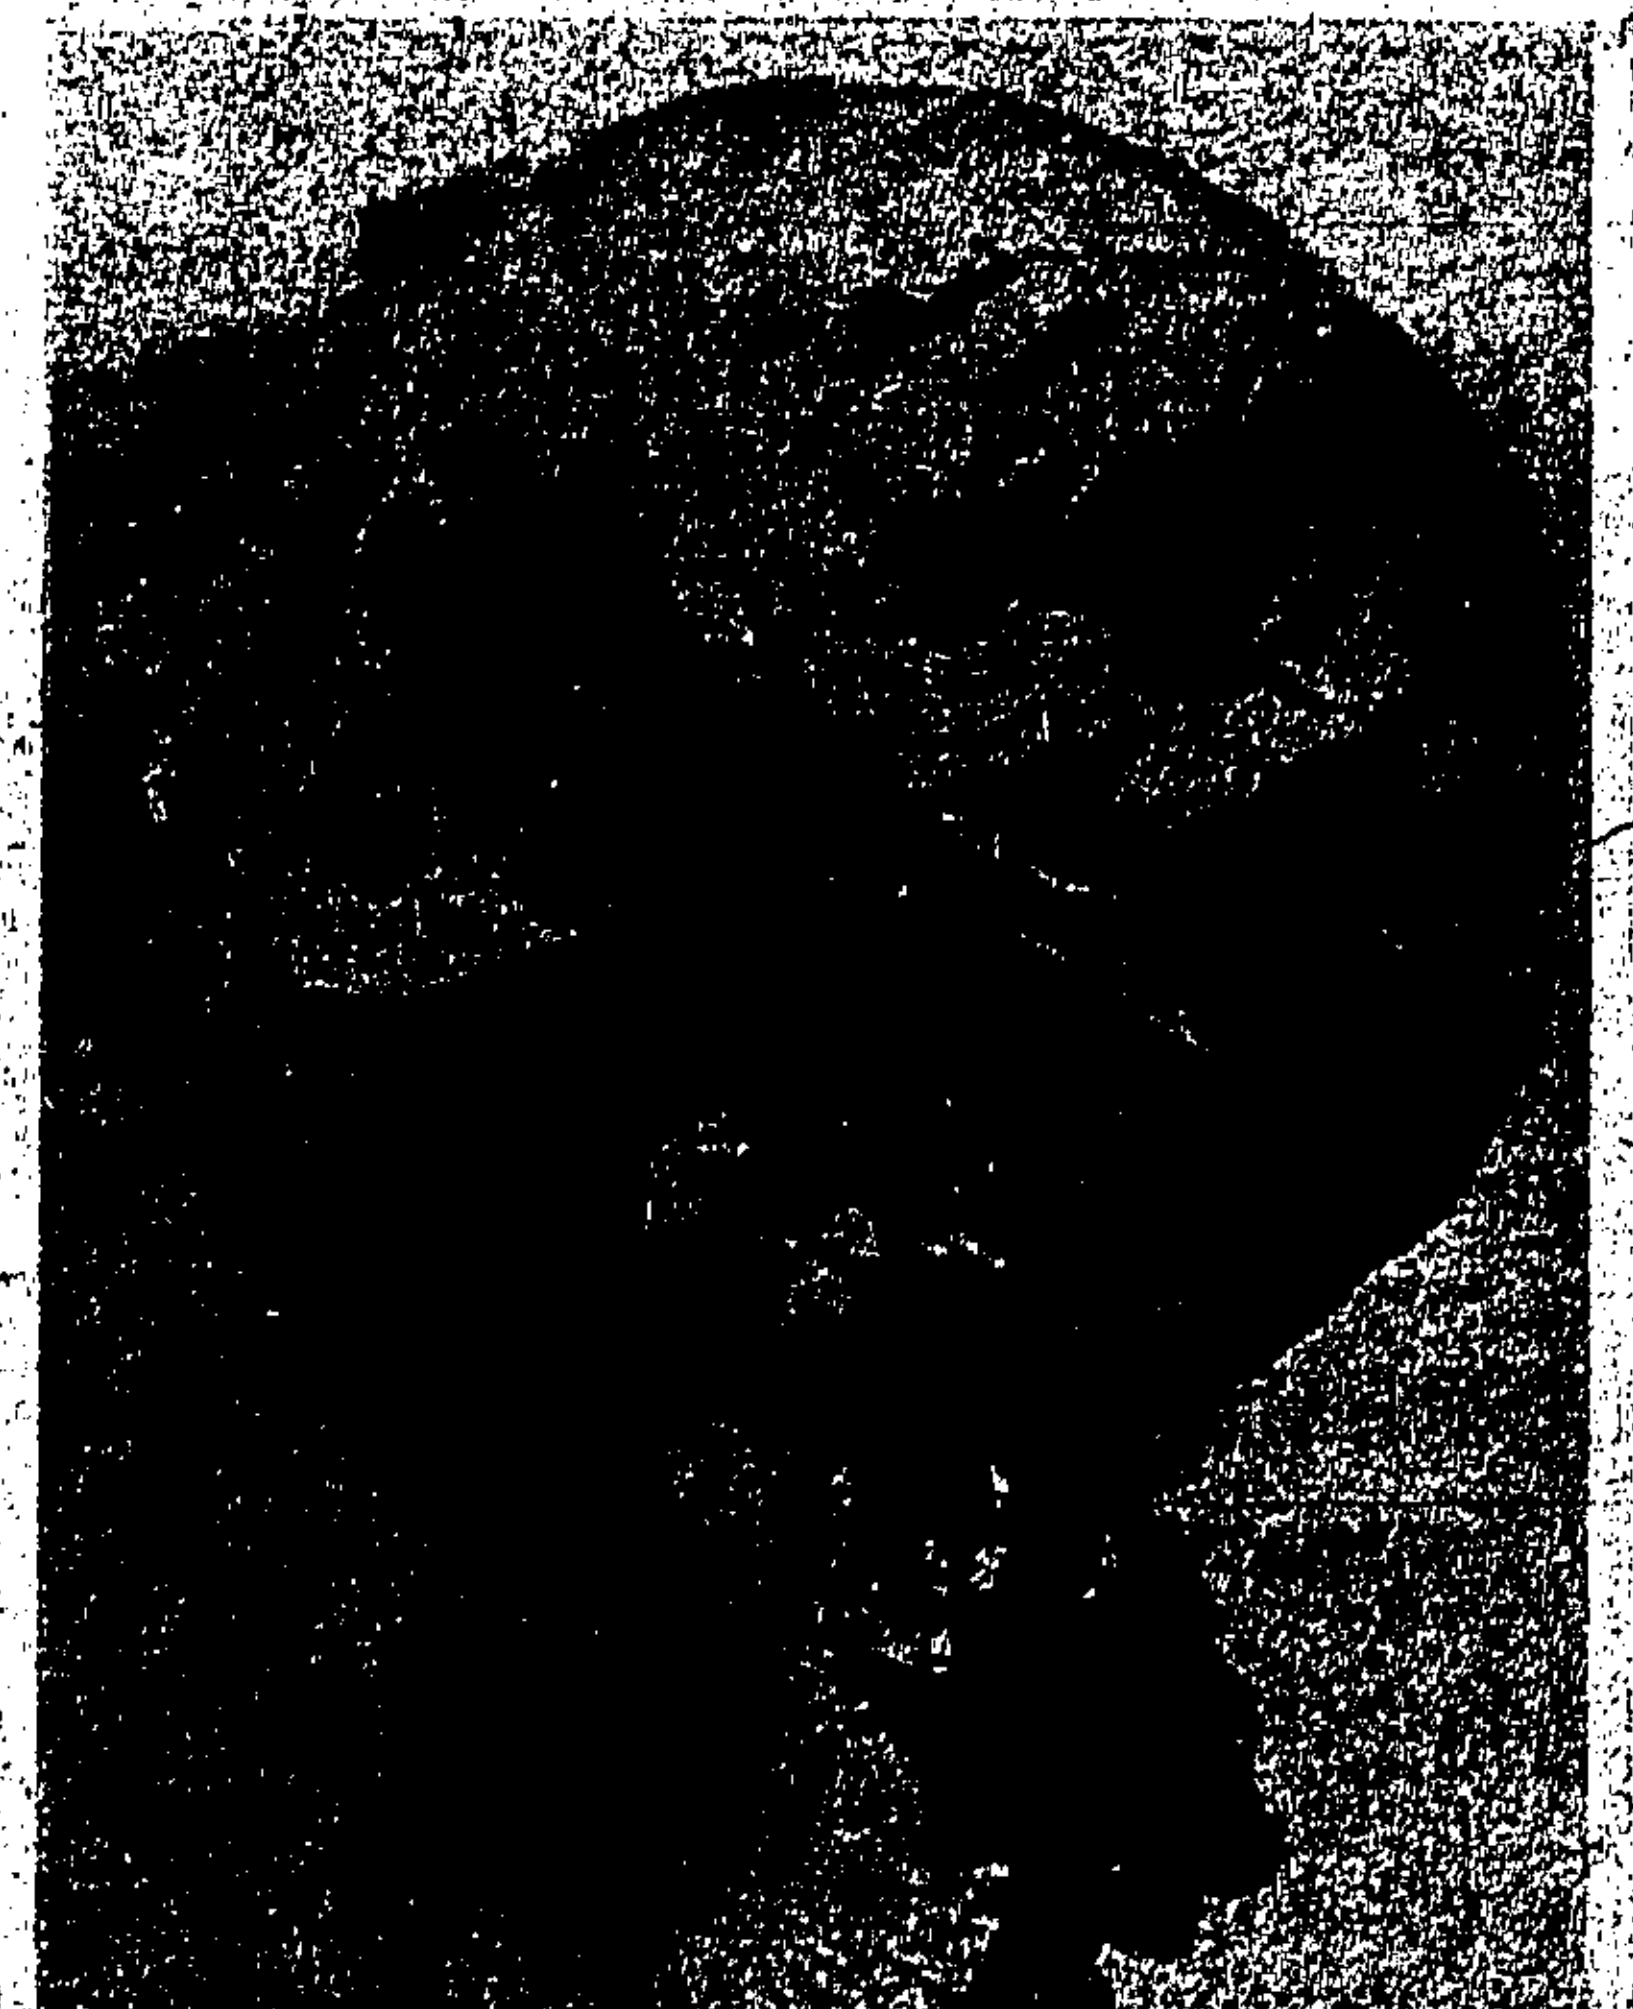

"The pilgrimage is organised to celebrate a very important anniversary: it is only eleven years that

Mgr. Valtorta was elected Bishop of Hong Kong and in these eleven years wonderful progress has been made in this Vicariate. I have reckoned how many new institutions and buildings have been erected during this time and I found out that no less than 37 institutions have been erected by Mgr. Valtorta. It would be characteristic to prepare a portrait of Mgr. Valtorta surrounded by the photographs of so many new institutions.

"To-day we are going to celebrate the blessing of a new Chapel: it is the fourth celebration in less than a week: last Saturday the new hospital of the

## Coronation Film Wins Applause

A large section of the audience at the 9.30 p.m. performance at King's Theatre on Saturday night burst forth in hearty applause at the conclusion of the screening of the M.G.M. newsreel of the Coronation of Their Majesties King George VI and Queen Elizabeth.

The film was a most interesting record of the wonderful pageantry that stirred not only London but the whole world.

The triumphal procession is shown en route to Westminster Abbey, then the historic Crowning ceremony by the Archbishop of Canterbury, followed by the return of the procession to Buckingham Palace.

It was when Their Majesties with other members of the Royal family appeared on the balcony that the audience applauded there: was additional applause when the beloved Queen, Queen Mary, appeared to acknowledge the cheering of the thousands gathered outside the Palace grounds.

## GULDAHL'S RECORD OPEN GOLF SCORE

### U.S. Ryder Cup Team Completed

Birmingham, Mich., June 12. Ralph Guldahl with a record score of 281, won the United States Open Golf Championship. Guldahl's last round of 69 was made in the hottest finish in the history of the tournament and enabled him to beat Manero's 1936 record by 1 and to establish what is generally rated as the new world's record for amateur open golf.

Guldahl now automatically joins the Ryder Cup team. Sneed, Dudley and Byron Nelson also gained places in the Ryder Cup team on the basis of the total scores in this tournament and also the P.G.A. qualifying rounds. Thus, together with the six already selected they complete the team of ten who leave for England on June 18.

**THE PLACING**  
The final placings in the tournament are as follows:—  
Sneed, who occupied second place, had a last round score of 71 and an aggregate of 281.

The totals for the combined 108 holes by the successful Ryder Cup nominees are as follows:—  
Sneed 430; Guldahl 432; Dudley 432; Nelson 434. Seven other nominees failed.—

## Distance Swimming By Russians

Long distance swimming is becoming one of the most popular sports in the U.S.S.R. The swimmers Malin and Falzulin, who swam 50 km. in the Black Sea in 1935, won wide renown throughout the country.

On September 1, in Sochi, Vladimir Kuznetsov (Moscow) attempted to swim a distance of 80 kilometres for the first time in the Soviet Union. During the last hours of his swim a storm arose and 600 metres from the finish the committee of judges ordered Kuznetsov out of the water. Thus he covered 59.4 km. in 28 hours and 40 minutes. The 135 kilometre swim of four Red Army men along the Volga was also a big event in last year's sports season.

This coming season hundreds of sportsmen will try their mettle in long-distance swimming. A scheduled 60 kilometre swim in the Black Sea will be of great interest. The best swimmers in the U.S.S.R.—Kuznetsov, Malin, Falzulin, Diko, Spitzin, Reizen—will participate. At present they are all undergoing intensive training for the forthcoming contest.

Sir Atholl was to have sailed a fortnight ago, but has been prevented through indisposition.

## DUKE OF GLOUCESTER AND BOYS' CLUBS

### £31,000 Promised At Dinner

The Duke of Gloucester, speaking as President, at a dinner of the National Association of Boys' Clubs at the London Guildhall recently, said that there were now 140,000 boys in the clubs. Only 11 years ago the Association started in a humble way, with no money. Referring to his visits to clubs all over the country, the Duke said that four years ago there were only four affiliated clubs in the county of Durham, and to-day there were 35. He paid a tribute to those who started clubs in districts where nearly everyone was unemployed. "It has been shown again and again that the opening of a club causes an almost immediate reduction in juvenile delinquency," he said. "This is an outward sign that the club instils into the boy ideals which form his character during the critical period just after he has left school."

Mr. Stanley Bruce, High Commissioner for Australia, said that the clubs contributed towards improving health, as they afforded opportunities for physical training and playing games.

In response to an appeal made on behalf of the Association at the dinner, guests gave or promised sums totalling £31,000. Sir Llewellyn Smith, Chairman of the Council of the Association, said that Lord Glanely, who had promised £1,000, had increased his gift to £5,000, and nearly £5,000 had been given by the Association of Jewish Youth.

## HOUSE COOLIE FINED

Appearing on remand before Mr. K. M. A. Barnett on Saturday at the Kowloon Magistracy, Tai Wong, aged 25, house coolie employed by Major C. M. Manners, residing at No. 20 Humphrey's Building, was convicted on three charges of receiving cups, saucers, and 15 plates, the property of Major Manners, bribing a police constable with \$2 and assault on the constable. The charge of stealing was dismissed.

Defendant was fined \$50 or two months' hard labour.  
Wu Yuen-chee, aged 21, house coolie, was discharged on a count of receiving as there was insufficient evidence.

## PLANE CRASH AT NAMHUNG

It is learned that the cadet plane which figured in last Monday's Far East Flying Training School escapade, crashed when it landed at Namhung, on the Kwangtung-Kwangsi border, as a result of which it was badly damaged on account of it being overturned.  
The pilot, Ho Tak-sang, is being removed to Canton under military escort.  
The damaged machine will be repaired by a mechanic sent from Hong Kong, at the completion of which it will be taken to Canton until release is authorised by the Nanking Government.

## Shanghai Polo In Full Swing

Some very good polo was seen at Shanghai last week when four two chukker matches were played and several combinations that will be seen in tournament play during the season were in action. In the opening match the Ewo team (Gordon, W. J. Keswick, John Keswick and Newbigging) had to go full out to gain a well merited victory over a team composed of Lutey, R. N. Harris, Moore and Culbertson. The match was scoreless until the last minute of play when W. J. Keswick scored for Ewo. The bell rang before there was any further score.

It is interesting to note that all the members of Ewo team are well known to local polo enthusiasts, having played here previously.

A much improved Lutey was doing a lot of "the donkey work" whilst Culbertson showed again that he is fully worth his handicap of four. Harris, probably not playing his best polo, was neither as consistent nor as brilliant as usual.

**GORDON IN FINE FORM**  
For the winners Gordon was playing well up to his best form whilst W. J. Keswick showed on occasion that he has lost none of his brilliant stickwork. Newbigging was erratic whilst general-

ly speaking John Keswick was decidedly off.

The losers in the first match showed better form when they met and defeated Allman, White, Faircler and Franklin by three goals to one in the second.  
Harris pleased spectators by scoring two lovely goals but the outstanding player was again Culbertson. Always superbly mounted he is an infinitely better player today than he was a few years ago. The Shanghai ground is too small for Painter's play to be appreciated and he is always a better man at Kiangwan.

**PRETTY PLAY BY W. J. KESWICK**  
L. K. Taylor took Franklin's place in Painter's team in the third match when they met and beat Ewo, playing their usual team. Ewo were all over their opponents in the first air but went to pieces in the second chukker. Quite the prettiest piece of play of the whole afternoon occurred in the first chukker when W. J. Keswick picked up the ball and took it all the way on his own in a long dribble to score the first goal. Before the end of the chukker his brother had added a couple more goals and it looked as though Ewo would score a comparatively easy victory.

Despatches out of Spain state that the Nationalist army before Bilbao, taking advantage of the brilliantly fine weather, has launched General Francisco Franco's long-threatened offensive against the Basque seaport and chief city. The attack commenced yesterday, as predicted.

Behind the "Iron Ring" fortifications the planes bombed and machine-gunned villages and roads as far back as Bilbao. Thirty civilian inhabitants were killed when several quarter-ton bombs fell on Lezma, directly in the centre of the village.

"SPATE OF ORATORY"

Geneva, June 11.  
There was a spate of oratory at the International Labour Office conference to-day, with 26 speakers giving their views on the Directors' report and the social problems arising therefrom.  
Mr. Yoshizaka, of Japan, dealt with the progress of his country during the last 70 years, and said Japan was unable to agree to a 40-hour working week, but the Government was seriously devoting its attention to the reduction of hours.  
Mr. Lei Ping-heng, Chinese representative, was less optimistic than most of the speakers. He said he feared the prosperity now acclaimed was more apparent than real, being almost wholly due to the building of new armaments. He dwelt upon the important work done in China to create employment and stressed the desirability of the re-election of China to the governing body of the I.L.O.

## JOHN MEADE'S WOMAN

A gripping story of a love that turned to hate and then to love again brings Edward Arnold to the screen again in the role of an industrial Croesus who thought he could buy a woman's heart with gold, in "John Meade's Woman," which has its run at the Queen's Theatre to-day.

Starring opposite him is the intriguing Francine Larrimore, noted stage star, who makes her initial motion picture appearance in this drama.

Arnold, rich and ruthless industrialist, is engaged to Gail Patrick, a society beauty who intends to marry him for his money. She is really in love with Sidney Blackmer, who is of her own class. Arnold accidentally meets Miss Larrimore, a country girl trying to make a go of it in the big city, and becomes interested in her. When he discovers the affair between Miss Patrick and Blackmer, he marries Miss Larrimore, merely to humiliate the high-born beauty. Miss Larrimore really loves Arnold, and when the time comes when he tells her why he married her and offers to pay her for it, she is heartbroken. She returns to the land from whence she arose, spurning Arnold's gifts and proffers of aid. The love she bore him turns to a fierce and burning hatred.

Also in the brilliant cast are George Bancroft, John Trent, Jonathan Hale, Stanley Andrews and many others.

## PARK AVENUE LOGGER

Cast as a two-fisted, battle-loving lumberjack in his second George A. Hirtman Production for RKO Radio release, George O'Brien, star of the recent historical epic, "Daniel Boone," comes to the screen in a role that gives him ample opportunity to demonstrate his athletic proclivities and dramatic talents. The new outdoor vehicle is "Park Avenue Logger," a rugged yarn of the big timber belt by Bruce Hutchinson recently published in the Saturday Evening Post.

The thrilling adventure story shows O'Brien as a new recruit in a logging camp, fresh from Park Avenue in New York where he was looked upon as a social success and an intellectual highbrow. Disgusted with his son's apparent lack of red-blooded desires, Lloyd Ingraham, as the wealthy father and lumber magnate, sends the young man to one of his lumber camps in the Northwest, instructing the foreman to make a man of him.  
David Howard directed "Park Avenue Logger," which is showing at the Alhambra Theatre to-day. The cast include Beatrice Roberts, Bert Hanlon, Gertrude Short, Willard Robertson, Ward Bond and Robert E. O'Connor.

## FILM STRIKE ENDS

## CHURCHES ON THE CONTINENT

Bishop Of Gloucester's Comments

London, June 11.

"The German Chancellor is deeply religious but demands a form of Christianity in keeping with modern developments."

This is part of the preface written by the Bishop of Gloucester, the Rt. Rev. Arthur Headlam, to a book entitled "The Situation of the Church on the Continent," which has just been published.

The Bishop goes on to state that there is actually no religious persecution in Germany but merely an attempt to discourage the clergy from engaging in politics.

Discussing the tendency in Britain to regard Nazism and Communism as similar forms of extremism, he warns the British public not to pay too much attention to the remarks and actions of "certain irresponsible members of the Nazi Party."

SUCCESS ACHIEVED.  
"It must be admitted," he declares, "that the present regime in Germany has achieved a success that was impossible under a liberal form of Government."

In a short lecture to his countrymen the Bishop emphasises the fact that the Englishman is often inclined to criticise unduly on the basis of his own social ideas, and this, he says, is detrimental to the improvement in Anglo-German relations which to-day is essential for the maintenance of world peace.

## DUKE OF WINDSOR

To Retain Former Ranks

London, June 12.

An unofficial report published in London to-day that the Duke of Windsor was to be reduced in seniority in all the fighting Services, drew a quick reply from official quarters.

The reply, which is authoritative, states that the former King retains the rank of 'Admiral' of the Fleet, Field-Marshal and Air Marshal.

It is added, however, that when he abdicated, he automatically lost his special seniority in these ranks, which was his as King.

Thus the Duke's seniority in each of the fighting forces dates from the day of his assumption of the ranks, January 21, 1936.

## GENERAL SPANKY

A boy and his hero encountering the thrills and drama of the war between the North and the South has been taken as the theme for "General Spanky," which presents Spanky McFarland in his first starring role in a feature-length production. And judging from the enthusiastic audience reaction last night at the Majestic Theatre, the little eight-year-old Dallas, Texas, boy ascends among the juvenile screen celebrities in a picture that is highly entertaining for grown-ups and children.

Spanky is an orphan shining shoes for a livelihood on a Mississippi River boat. He meets Phillips Holmes who befriends him against the villainy of Irving Pichel. The war breaks out. Holmes becomes a captain in the Southern forces; Pichel a captain for the North.

Spanky, left behind with his tiny slave, Billy Thomas, organizes an army of kids with Carl Switzer as the second general.

## SUMMER CAMP FOR BOYS

King Hopes To Attend

London, June 12.

It is understood that it is the King's intention, if State duties permit, to visit the seaside camp in Suffolk which he himself founded as the Duke of York and which is attended every year by 200 boys from public schools and 200 lads from factories and workshops who spend a week together.

This year's camp is being held from July 31 to August 7, and His Majesty will, it is hoped, spend a full day during the week at camp.

In the past, on several occasions as Duke of York, he spent the night under canvas with the boys but this year it is expected that His Majesty will only be able to spend the day with them.

## BUSY DAY FOR THE HOUSE

Financial Resolutions  
Dealt With

London, June 11.

The House of Commons fulfilled to-day an unusually heavy programme of business for Friday. Three financial resolutions were passed, the first of which related to the extension of export credit facilities. The Secretary for Overseas Trade Mr. R. S. Hudson, said the experience of the last few years which had seen the total of guarantees rise from £7,500,000 in 1933 to £35,000,000 in 1936, had proved that the Export Credits Guarantee Department, originated in 1919 as an experiment, could now properly be regarded as part of the permanent trade facilities available to British exporters.

It was proposed to raise the limit of total guarantees to £50,000,000 and also to extend the scope in several particulars, he said. The second resolution was for the purpose of authorising the Post Office to borrow up to £35,000,000 for development of telegraph and postal services. In describing the progress which necessitated fresh borrowing the Postmaster-General referred to the success of the concession introduced last October by which the first fifty calls each quarter are not charged to subscribers' account. Response was such that the Post Office was calculating on having to provide an additional 250,000 telephones this year.

### TRUNK AND TELEGRAPH SERVICE

There also had been remarkable expansion in trunk service, and telegraph service, after some years of decline, was showing a marked upward tendency. The programme would give employment to about 47,000. The whole story, Major Tryon said, was that development was going forward more rapidly than had been anticipated as a result of rising employment and increased prosperity generally.

After the third resolution, the Commons passed to the consideration of the Physical Training and Recreation Bill, which received its third reading before the House rose. The Bill has two main objects. It gives statutory authority for setting up of necessary administrative machinery—the frame of which has actually been established in advance—for carrying out of the Government national physical fitness campaign. Secondly, the Bill enables the Board of Education to pay grants to local authorities and voluntary organisations for the same purpose. Mr. Kenneth Lindsay, Parliamentary Secretary to the Board of Education, mentioned that special consideration was being given to the use of films for arousing interest and giving instructions in physical education. The aim for the campaign was to stimulate voluntary endeavour and create new leadership of trained men and women to inspire the whole people with the ideal physical fitness.

### "IRON RING" BOMBED

Salamanca, June 11.

A communique issued by insurgent headquarters claims that as the result of intensive bombing of "iron ring" of Bilbao, the Nationalist forces occupied an important strong point despite wretched weather conditions, involving an onslaught across shell-pitted mud-holes.—Transocean News Service.

### BILBAO DEFENDERS DEMORALISED

Paris, June 11.

Independent reports received in Paris from Spain tend to confirm earlier insurgent claims that the Republican defenders of Bilbao were completely demoralised by the large-scale offensive launched by the rebels.

Main factor in the insurgent success appears to have been the intensive bombing from the air which preceded the infantry attack. The fighting was particularly bitter near Mungia, where the loyalist defenders put up a stout defence before being pushed back. Reports from Bilbao state that a number of small Basque armed vessels fought a half-hour action to-day with the insurgent cruiser Almirante Cervantes.

The short battle was indecisive and none of the ships engaged was damaged.

An Agency Radio message declares that insurgent warships to-day seized a steamer flying the

## DR. H.H. KUNG RECEIVED BY GEN. GOERING

Germany Needs Raw Materials  
From China

Berlin, June 11.

The Chinese Finance Minister, Dr. H. H. Kung, accompanied by the Navy Minister, Admiral Chen Shao-kuan, and the Chinese Ambassador in Berlin, was received by General Hermann Goering on Friday morning at the Air Ministry.

The party later proceeded to General Goering's villa, where long discussions were held.

Dr. Kung was the guest at luncheon of various German Asiatic societies. Yesterday evening the Chinese visitors were the guests of General Goering at Richard Strauss' opera Arabella at the State Opera House, and took supper at the Hotel Bristol.

Dr. Kung honoured Germany's War dead when he placed a wreath with the Chinese and German national colours at the foot of the war memorial.

He was escorted by twenty Chinese officers and was saluted by a guard of honour of German Infantry.

Dr. Kung also honoured the late General von Seeck by placing a wreath on his grave in the Invaliden Cemetery.

### FOR MUTUAL BENEFIT

The German newspapers continue to play up the visit of Dr. Kung.

The "Frankfurter Zeitung" declares in a leading article that the conferences being held in Berlin will be mutually beneficial to both China and Germany.

The fact that definite commercial agreements were not discussed in no way detracts from the significance of the talks, since Sino-German relations have flourished for many decades without special diplomatic or commercial formalities, this proving that the relations are based on the mutual inclination of both countries and therefore do not require artificial stimulation or definition.

The Vice-President of the China Study Society, Dr. Hans Schippel,

also writes a long article on Sino-German relations.

### RAW MATERIALS FROM CHINA

He points out that further development is possible and desirable since each country is able to export what the other needs.

German industry will be able to assist Chinese industry in carrying out programmes of development in transportation facilities, while China will be able to supply Germany with great quantities of raw materials, especially when her project of agricultural development is complete and she has begun large-scale exploitation of her natural resources.

For this reason, German economic and political circles are especially gratified to observe the increasing political and economic consolidation that is taking place in China to-day under her progressive leaders.

Transocean News Service.

### BRIGHT OUTLOOK

Berlin: The visit to Berlin of the Chinese Finance Minister, Dr. H. H. Kung, is apparently to be productive of concrete results.

This is indicated in a statement to-day by the Chinese Ambassador to Germany, who said: "Politically and economically we may assume that Sino-German relations will soon be placed on a new basis."

"I am certain that every German who recalls the post-war history of his country will sympathise with China, for the conditions in our two countries have been very similar."

"Germany, as an industrial country, needs our raw materials, and we need Germany to develop our natural resources and to export to China her goods and machinery."

"There is nothing but advantage in close Sino-German economic relations and they will help to solve the economic problems of both of us."

### WOOD STEALERS

#### Colony Law Being Strengthened

The "Gazette" contains the draft  
of an Ordinance to consolidate  
and amend the law relating to  
forests and plants.

This Bill consolidates the law  
dealing with "the protection of  
forests, trees and plants and the  
powers possessed by Officers of the  
Forestry and Botanical Depart-  
ment in enforcing such protective  
measures."

Certain minor amendments and  
additions have been made. The  
only addition of importance in the  
Bill is Section 19 which gives a  
limited power of search and arrest  
considered necessary in combat-  
ting the activities of wood-stealers  
particularly in the more isolated  
parts of the Colony.

### CORRECTING HIS INTERPRETER

Dr. H. H. Kung, China's chief  
Coronation delegate, brought an  
interpreter with him recently when  
he was the guest of honour at a  
public lunch, writes a Home cor-  
respondent.

But Dr. Kung's opening sentences  
in English suggested that the pre-  
caution was unnecessary. At the  
end he confirmed that impression  
by correcting his own interpreter.

The interpreter, a fluent young  
man with a hint of American in  
his accent, had translated a  
sentence:

What little I have done has  
been my pleasure.

When Dr. Kung interposed:

That should have been "privi-  
lege," not "pleasure."

The interpretation was made at  
about two-minute intervals in the  
speech. It gave the impression  
that English is at least 100 per  
cent. more succinct than Chinese.

I timed one passage. It took  
1 min 45sec in Chinese, a little un-  
der a minute in English. Both  
had manuscripts, and the inter-  
preter spoke a good deal less  
briskly than his chief.

### MYSTERIOUS ATTACK

A story of a mysterious attack  
on a young woman, named Lau  
Yau, aged 20, of No. 10 Tsap  
Tseung Street was reported to the  
police in the early hours of  
Saturday morning by the victim  
who alleged that on returning  
home from shopping, someone  
came behind her on the staircase  
and twisted a piece of soft wire  
round her neck and at the same  
time cut her hair. She shouted  
for help and her cries were heard  
on the first floor. Her aunt came  
out, but could not see anybody, as  
the person or persons responsible  
for the attack had already bolted.

She added that no words were  
spoken during the attack and that  
she did not know if there was one  
or several men. No attempt was  
made to rob her.

Lau Yau told the police that on  
Wednesday she was left alone in  
the house as the family had gone  
out. At about 9 p.m. someone  
knocked at the door and demand-  
ed admission. She refused to open  
the door and heard a man's voice  
threatening her, saying, "Be care-  
ful you will be killed." She did  
not open the door, but she was  
afraid.

Police enquiries are still in pro-  
gress.

### BLAIR CASTLE

#### Scots Stronghold Open To The Public

Blair Castle, the seat of the  
Atholl family in Perthshire, was  
opened to the public recently. The

of works of art, period furniture,  
and relics of the past will be open

Last year the public was given  
a similar opportunity of inspecting  
the historic building and a good  
deal of its contents, but this year  
the exhibition is on much larger  
and more interesting lines.

Blair Castle has probably more  
memories associated with it than  
any building of its kind in Scot-  
land. For centuries it commanded  
the line of communications be-  
tween the Lowlands and Highlands  
by the Pass of Killiecrankie, and  
it figured largely in the civil wars  
of the Stuart period. The Atholl  
family, too, have been so closely as-  
sociated with many of the thrilling  
events of Scottish history that the  
castle is a veritable museum of  
articles associated with the past.

The assembling of the collection  
has extended over several centuries.  
To describe it properly therefore  
would be to tell the history, al-  
liances, and exploits of the Atholl  
family, and to deal with the  
Jacobite period alone would be to  
re-write the stirring events of the  
'15 and '45 rebellions.

##### THE '45 RECALLED

To go no further back, however,  
than the eighteenth century, it  
may be noted that in 1746 Blair  
Castle was held by a garrison of  
Government troops, commanded  
by Sir Andrew Agnew. In March  
of that year the first Duke of  
Cumberland, who was a general  
in the army of Prince Charles  
Edward, came from Inverness  
to Blair Castle to avenge the  
cruel treatment of Atholl people  
by the Government soldiers. After  
taking the garrison outposts he  
surrounded the castle and almost  
succeeded in forcing the garrison  
to surrender, but he was obliged  
to hurry back to Inverness on the  
approach of Cumberland to  
Culloden. A number of iron can-  
non balls, which were fired at the  
castle in a red-hot condition by  
Lord George's troops, are still to  
be seen in the front hall, together  
with some of the charred wood-  
work on which they fell.

##### NEW FEATURES

This year more rooms have been  
thrown open to the public and  
many more articles of historic and  
educational interest have been  
placed on view. Among the  
exhibits added on this occasion is  
a very fine collection of surplus  
furniture which has been in the  
Castle for many years.

The outstanding feature of this  
collection is the fine specimens of  
eighteenth-century furniture. The  
collection really begins with a few  
dating from the sixteenth century,  
and there are some more of the  
seventeenth, but the greater num-  
ber belong to the eighteenth, and  
these are notable for beauty of de-  
sign and the fine quality of work-  
manship. The collection ends  
with examples of the Mid-Vic-  
torian period.

##### HAND-PAINTED WALLPAPER

Another exhibit added this year  
is to be seen in a room completely  
decorated with hand-painted Chi-  
nese wallpaper of the Chien Lung  
period. It is of a free-flowing  
floral design with birds, and is  
believed to be one of the finest  
examples of this type of art in  
the world.

A large collection of china is  
also on view, mostly of the  
eighteenth century, in which are  
numerous examples of Crown De-  
rby, Spode, Sevres, Chelsea, and  
Worcester ware. The collection does  
not, however, consist of museum  
pieces, but sets of domestic china  
which have been in the Castle for  
about two centuries. Some of the  
Chinese porcelain belonged to the  
Empress Josephine.

A number of rooms on the first  
and second floors of the castle,  
which are now open to the public,  
contain numerous articles and  
furnishings of great historic inter-  
est.

In all the rooms are paintings  
by famous artists, including those  
by Hoppner, Raeburn, Zoffany,  
Lely, Allan Ramsay, Guthrie, Land-  
seer, and others.

##### SCOTTISH WEAPONS

Arms of various periods and re-  
lics of battles are arranged mainly  
in the outer and inner front halls.  
The collection is too large to  
enumerate, but mention may be  
made of the many groups of old  
Scottish weapons, among which  
are the flintlocks carried by the  
Atholl Highlanders, brass-mounted  
Highland "targes," broadswords,  
dirks, Lochaber axes, and a pile of  
6-pounder cannon balls, captured  
by the Jacobites from the Govern-  
ment forces during the '45 rising.

### CHINA PREPARED TO TAKE FOREIGN LOANS

#### But Not For Industrial Work

Berlin, June 13.

Dr. H. H. Kung, interviewed by  
the "Deutsche Allgemeine Zeitung"  
said that China would not ask for  
foreign loans for the construction  
of railways, erecting industrial  
plants or stabilising currency, but  
China was prepared to take up  
foreign loans in order to convert  
interior loans with high interest  
into foreign loans of lower interest.  
Dr. Kung said that China's in-  
terior loans amounted to two  
milliards Chinese dollars for which  
interest of six per cent. was paid,  
which in view of the low rate of  
issue corresponds to eight per cent.

If China could obtain foreign  
loan at four per cent. he would  
save eighty million dollars in in-  
terest which could be used for in-  
dustrial reconstruction. He added that  
these ideas form the basis of a  
Chinese loan policy and in view of  
the confidence which China enjoys  
abroad, they should form a suitable  
basis for China's co-operation with  
other friendly powers.—Reuter.

### DR. KUNG AT MUNICH

#### Chancellor Sends Cars For Party

Berlin, June 13.  
Dr. H. H. Kung arrived at Munich  
by train at 8.10 a.m. accompanied  
by Dr. Cheng Tien-fong, Chinese  
Ambassador to Berlin, and four  
other members of the delegation  
including Admiral Chen and Mr. W.  
H. Wong. There will be no official  
reception.

Dr. Kung had breakfast in a  
special room at the station reserved  
for official visitors. Later the party  
drove to Berchtesgaden to meet  
Chancellor Hitler. Four Mercedes  
cars were sent by the Chancellor.—  
Reuter.

### CHANGES IN THE NAVY

#### NO MORE DITTY-BOXES

A fourth series of decisions by  
the Admiralty on requests put for-  
ward at the review of Service con-  
ditions held in the naval com-  
mands last autumn is remarkable  
for the number and variety of the  
subjects dealt with. The requests  
in this batch number 257, more  
than in the three previous lists,  
put together, and range from an  
application for central heating in  
naval barracks to an extension of  
cheap travelling facilities, and  
from educational courses to the  
provision of postage stamp auto-  
matic machines in shore establish-  
ments. While the majority of re-  
quests cannot be granted the  
Board give explanations in detail  
of their decisions.

In response to various requests  
about the time-honoured seaman's  
ditty-box, it is decided that when  
existing stocks are exhausted all  
ratings now supplied with a ditty-  
box on entry will be given an at-  
taché case instead, and arrange-  
ments will be made for the stow-  
age of such cases in new construc-  
tion.

Easy chairs are to be supplied to  
C.P.O.'s messes at the rate of one  
for every 12 C.P.O.s accommodated  
in place of the same number of  
 Windsor chairs now supplied.  
Chief and petty officers' messes in  
destroyers are to be improved by  
the conversion of lockers into set-  
tees.

A longer morning rest is to be  
given members on duty in the mid-  
dle watch; subject always to the  
internal organization of the ship,  
no objection is seen to their be-  
ing permitted to lie in until such  
time as will ensure hammocks be-  
ing lashed up and stowed before  
the beginning of the normal break-  
fast hour of the ship's company.  
Their Lordships have decided to  
allow an additional leading cook to  
each flotilla for replacement of  
cook ratings absent from duty  
owing to sickness. A similar con-  
cession is made for a sick-berth  
attendant to be added to the com-  
plement of the leader of a des-  
troyer division not accommodating  
the medical officer.

An amendment will be made to  
the regulations to provide that,  
subject to the satisfactory internal  
organization of the ship for the  
work in view, on return from for-  
eign service men not living in the  
immediate vicinity of the port  
from which leave is being given  
are to proceed on foreign service  
leave with the first watch.

##### WEARING OF WHITE CAPS

A large number of requests re-  
late to uniform. The request for  
white caps to be worn all the year  
round is not approved. Men are,  
however, to be allowed to wear  
shore scarves, so long as these are  
plain white and uniform in ap-  
pearance. Approval is also given  
for men dressed as seamen to wear  
brown leather gloves when ashore  
on leave, and to purchase them  
through the accountant officer.  
Petty officers are to be allowed to  
wear the light weight caps, now  
allowed on foreign stations, with a  
cap cover during the summer  
months at home, but they must  
also have two blue cloth caps when  
cap covers are not being worn.

It has been asked that week-end  
railway excursion facilities be  
granted at the home ports, and in-  
quiries are being made by the Ad-  
miralty on this matter of the com-  
panies.

### 100 M.P.H. ENGINE FOR L.M.S.

#### NEW STREAMLINED EXPRESSES

A locomotive which, according to  
its designer, is capable of a speed  
of 100 m.p.h. was completed at the  
London, Midland and Scottish  
Railway works at Crewe recently,  
and amid the cheers of workmen,  
was drawn out of the engine shed.  
The engine is named Coronation,  
and will draw a new train, the  
Coronation Scot, between London  
and Glasgow, covering the 401  
miles in 6½ hours, the fastest ser-  
vice on record between the two  
cities.

Both engine and coaches are  
streamlined and painted royal blue  
and silver. The first run will be  
on July 5.

For this new service Mr. W. A.  
Stanier, chief mechanical engineer  
of the L.M.S., has designed five  
streamlined high-speed locomotives  
and three nine-coach luxury  
trains employing air-condition  
ventilation. The coaches are be-  
ing constructed at the L.M.S. works  
at Wolverton.

Coronation's four sister-engines,  
when completed, will be named  
Queen Elizabeth, Queen Mary,  
Princess Alice and Princess Alex-  
andra.

##### EXHAUSTIVE TESTS

The five locomotives are as fully  
streamlined as is considered prac-  
ticable, following exhaustive tests  
with models in the wind tunnel at  
the L.M.S. research laboratory,  
Derby. These tests involved the  
creation of winds and gales such  
as are frequently encountered on  
the mountainous parts of the West  
Coast route.

Coronation is the heaviest ex-  
press engine and tender yet built  
by the L.M.S. It weighs 164 tons  
9 cwt. and is nearly 74ft. long over  
all. Compared with the standard  
Princess Royal locomotive, it has  
a larger boiler, and were other  
technical improvements. To give  
increased speed the driving wheels  
are 6ft 9in in diameter, 3in larger  
than those of the standard engine.

Ten tons of coal and 4,000  
gallons of water will be carried on  
the journey between Euston and  
Glasgow, but additional water sup-  
plies will be picked up at speed  
en route.

A novel feature is the provision  
at the back of the tender of a  
steam-operated coal pusher, con-  
trolled by the enginemen, which  
during the run will push the coal  
forward to within reach of the  
fireman, thus saving considerable  
manual labour.

"The effect at full speed will be  
that of a blue and silver flash," the  
constructors state, and it is easy  
to imagine this from no more than  
a view of the stationary section of  
the train.

There is also the breastplate worn  
by Graham of Claverhouse, Vis-  
count Dundee, at the Battle of  
Killiecrankie.

Among exhibits of a more recent  
period are the guldons of the 1st  
Scottish Horse, raised in 1802 by  
the present Duke, when Lord  
Tullibardine, and also the guldons  
of the 2nd Scottish Horse, raised  
in 1809. One of the relics, his  
Lordship brought home from the  
Sudan War, in which he greatly  
distinguished himself and won the  
D.S.O. is a minaret or finial from  
the Mahdi's tomb. This has been  
placed on a turret of the castle.

## BILBAO'S "IRON RING" PENETRATED

### But Insurgents Still Hold Captured Salient

London, June 13.

After two days of some of the fiercest fighting in the present civil war, the insurgents penetrated Bilbao's "Iron Ring." This consists of the fortifications running in a rough circle seven miles from Bilbao, along the last line of the hills with three lines of trenches protected in some places by six belts of barbed wire, all linked with the communication trenches.

The insurgents concentrated the attack on a narrow front, three miles wide, and succeeded in driving a wedge into the "iron ring" at this point, capturing the frontline trenches. The Basques have withdrawn to the second line. Fighting continued all day long at this sector but indications are that the insurgents are still holding the captured salient.—Reuter.

## FORTY EIGHT PLANES IN ACTION

Paris, June 13.

The Nationalist troops smashed through the "iron ring" of Bilbao's defences, according to the Havas correspondent with the Nationalists on the Bilbao front, who states that the troops have no further obstacles before them in their advance to the city, the houses of which were expected to dominate late last night.

The breach was made by the first Navarre Brigade commanded by the thirty-eight-year-old Col. Valino who advanced on a two-mile front in the wake of bombing activities by forty-eight planes which effected breaches in the Basque ring of fortifications at Mounts Castelmendi and Santa Maria late in the evening. Thereafter there was little resistance forthcoming which is extraordinary in view of the Basques' previous stolid five-hour resistance to the terrific artillery and aerial bombardment.—Reuter.

TEN THOUSAND SHELLS

Bilbao, June 13.

The centre of the city to-day was heavily bombed and machine-gunned for an hour by Nationalist planes of German make evidently in pursuance of the policy of terrifying the Basque rear guard while the attack was continued on the "iron ring."

The offensive reached a most intense character, assuming all the characteristics of a major modern war. It is calculated that ten thousand shells fell during the day along the three-mile ridge of mountains on which the Basque defences are ranged, exploding at an average of thirty per minute.

Prisoners report that the bulk of the artillery were of German or Italian make and manned by men of those nationalities.

Heavy fighting was still progressing late last evening.—Reuter.

## NEW SINGAPORE AIRPORT

### Inaugurated By Sir Shenton Thomas

Singapore, June 12.

Singapore's new £1,000,000 civil aerodrome was inaugurated to-day by the Governor, Sir Shenton Thomas, who made an official landing at the airport from an imperial airways flyingboat.

Fifty aircraft gave a demonstration, including Imperial Airways machines, machines from the Royal Dutch/Line and the Netherlands India Airways, the Royal Air Force and the flying clubs of Malaya.

The aerodrome is situated two miles from the centre of the city on reclaimed marshes and is the result of a difficult engineering feat.

From the centre of the field there is a 1,000-yard runway for land planes, whilst there are also landing facilities in the water for seaplanes and flyingboats.

The aerodrome is provided with a post office and restaurant of the most up-to-date types.—Reuter.

## ROUND-THE-WORLD FLIGHT

Elfersham, June 13.

Mrs. Amelia Earhart Putnam arrived here this afternoon from Fort Lamy where she departed at 11.00 G.M.T., having been delayed by minor trouble to the shock absorbers. She leaves Elfersham for Khar-toum at 5.30 a.m. to-day.—Reuter.

BOUND FOR ADEN

Khartoum, June 13.

Mrs. Amelia Earhart Putnam arrived here at 9.15 a.m. local time and resumed her flight at 8.42 a.m. G.M.T. for Aden.—Reuter.

## OFFICER KILLED IN FALL

London, June 12.

Lieut.-Commander P. C. Ransome, commanding officer of the destroyer H.M.S. Gipsy, was killed as a result of a fall from the bridge while the warship was proceeding to Gibraltar from England.

This was revealed in an official Admiralty announcement to-day, which adds that Gipsy was on her way to Gibraltar in company with other vessels of the Mediterranean Fleet.—Reuter.

## PLOT TO KILL M. STALIN

### Announcement From Moscow

London, June 11.

That the Red Army officers sentenced to death for high treason had definitely plotted to kill Stalin, is the sensational announcement appearing in the "Daily Express" this morning from its Moscow correspondent.

The correspondent also alleges that the sentence has aroused a serious internal split, the nation being divided into two camps over the trial, and suggests that the affair may have "most serious consequences."

"It has aroused a veritable panic in Moscow," the correspondent asserts, "and the air of tension which has been noticeable ever since the Stalinist purge started a few months ago, has increased visibly."

MASS MEETINGS

While the trial of the officers was in progress, mass meetings of workers held in factories all over the country demanded the death sentence for the accused men as "traitors."

The correspondent gives the other side of the picture, however, and says that many hostile demonstrations were held in the streets of the capital yesterday.

In revealing that the aim of the accused was to kill Stalin, the correspondent says that the Public Prosecutor alleged at the trial, which was held in camera, that General Gamarnik, who committed suicide, was to have shot Stalin.

"BOURGEOIS REPUBLIC"

This was to have been followed, he alleged, by the proclamation of General Michail Tukachevsky as President of a new "bourgeois Soviet Republic" with the help of the garrisons of Moscow, Kiev, Minsk and Leningrad.

The revolt was stated to have been originally planned for last autumn, but was postponed several times.

"Pravda" to-day publishes a report that another revolt, in the Black Sea region, has been discovered and nipped in the bud.—Transocean News Service.

EXECUTION CARRIED OUT?

Moscow, June 11.

Sentence of death on the Red Army leaders convicted of high treason is believed to have been carried out this morning, although no announcement has actually been made.

There can be no appeal from the verdict of the court and no possibility of executive clemency.—Reuter.

## ROSELLI BROTHERS FOUND MURDERED

Paris, June 12.

Professor Carlo Roselli, the famous Italian anti-Fascist economist, who escaped from political imprisonment in the Isle of Lipari in 1929, and his brother, Sabatini Roselli, the historian, were found murdered yesterday on the grounds of the Chateau Courtenay, Normandy, the watering place of Bagnols Delemer.

The police consider that the crime was undoubtedly prompted by political reasons, the fact that the sum of £250 being found on the victims ruling out the question of robbery.

The victims were discovered following the finding of an abandoned car in which was a blood-stained glove and an empty revolver cartridge case, and a large condensed milk tin filled with gunpowder and fitted with a fuse.

Since his escape Carlo has been carrying on anti-Fascist activities and he recently returned, wounded, from Spain, where he organised the Italian Anti-Fascist Legion.—Reuter.

ITALIAN RELEASED

Bagnole, June 13.—The Italian who has been detained in connection with the murder of the Roselli brothers has been released as the Alibi he gave has been found to be correct. The police have little hope of finding a key to the mystery locally.—Reuter.

## EXPULSION OF MISSIONARIES

London, June 12.

The Foreign Secretary will be questioned in the House of Commons on Monday regarding the expulsion of British missionaries from Abyssinia.—British Wireless.

## FOUR POWERS REACH AGREEMENT

### Note To Be Despatched To Parties In Spain

London, June 12.

Full agreement has been reached on the text of the note to be sent by the British, French, German and Italian Governments to the Spanish Government and Insurgents on guarantees for protection of warships engaged on patrol work. Mr. Eden had a third meeting with the French, German and Italian Ambassadors this afternoon when further lengthy consideration was given to the text of the note.

The agreement closely adheres to the lines already discussed. The parties in Spain are asked to extend the provision of safety zones to ports for the use of patrolling warships and they are also asked to give assurances to do their utmost to avoid future incidents. In the event of an incident the four powers will consult regarding the action necessary.

The right of self-defence if a warship is attacked is never ques-

tioned, but there must be no resort to retaliation before consultation with other powers. It is assumed that consultation would take place in London, thus excluding a conference of Admirals and be of a diplomatic character.

The Non-Intervention Committee members will see the text during the week-end. All four powers agreed to circulate the agreement to the Committee as an act of courtesy. Germany and Italy are not expected to return to the Committee until replies are received from both sides in Spain.

A communique at the conclusion of the meeting announces that agreement has been reached and says that the text has been forwarded to the Chairman of the Non-Intervention Committee with a request that the contents be communicated to other members of the Committee.—Reuter.

## "OPIUM WAR"

### Indignant Japanese Statement

Peiping, June 12.

Another "opium war" opened to-day with a very indignant Japanese statement refuting the charges made before the meetings of the Opium Advisory Committee at Geneva.

The statement, which was made by Mr. Kato, First Secretary of the Japanese Legation, was a reply to charges against the Japanese, particularly by Russell Pasha, that Japanese soldiers were becoming drug addicts.

"I am sure," said Mr. Kato to-day, "that nobody can hear such abusive remarks without doubting Russell Pasha's sanity."

"The Japanese nation cannot overlook this wilful and malicious statement."

Mr. Kato warned the Opium Advisory Committee in the interests of national peace, to beware of arguments founded on unreliable information, and especially those calumniating the Japanese Army.—Reuter.

## STATESMEN AND THE PRESS

### Mr. Lyons's Plea For More Co-operation

Mr. J. A. Lyons, Prime Minister of Australia, emphasised the need for fuller co-operation and trust between Statesmen and the Press, speaking at the Coronation year dinner of the Newspaper Society at Grosvenor House recently.

There was a need he said, for mutual confidence between the Press and the Governments of the countries of the Empire.

Mr. Samuel Storey, M.P., said he had yet to learn what harm had ever come when Statesmen instead of meeting inquiries of Pressmen with half-truths and meeting demands to confirm with blank denials, placed their cards openly on the table.

Mr. James Henderson, the President, urging the need to safeguard the liberty of the Press, said he would like to impress particularly upon members of the House of Commons that if they find occasion to complain about the Press, they should be careful to specify whom they are attacking. The overwhelming majority of newspapers in the British Isles were conducted and produced with decency, dignity, and good taste.

A reply from the King and Queen to a telegram of loyal greetings was read.

## LENIN'S SISTER DEAD

Moscow, June 13.

The death occurred here to-day of the late M. Lenin's sister, Maria Ulanova, one of the earliest communists, at the age of 59 years.—Reuter.

## STRONG PROTEST LODGED

### Japan And Opium Conference

Geneva, June 13.

The Opium Consultative Committee concluded their session when Mr. Yokohama made the declaration stating that during the discussion on the Far East "I deliberately refrained from going into details of the information supplied which seemed to me to be much exaggerated. My silence has been used as political propaganda by certain Far Eastern newspapers, for example the sentence of Russell Pasha's statement concerning the Japanese officers and soldiers has been taken to form a large headline."

"In view of these highly regrettable occurrences, I must make a strong protest against this aspersion cast on the Japanese army in which no case of drug addiction had ever been reported."—Reuter.

## BRITAIN AND JAPAN

### Prince Chichibu On Common Ideals

Prince Chichibu of Japan, as Knight Vice-Patron, attended a dinner held by the Knights of the Round Table Club at the May Fair Hotel in honour of the Netherlands Minister (Mr. R. de Maere van Swinderen), states the "Times."

Lord Queensborough, Deputy Knight-President, was in the seat of King Arthur, and was supported by Senior Knights Vice-president, the Japanese Ambassador, the Norwegian Minister, and Lord Asquith. On account of indisposition the Netherlands Minister was unable to be present.

The toast "King Arthur" was proposed by the Knight Vice-President, Mr. Albert C. R. Carter, who said that their ancient club had become a true brotherhood of nations. They welcomed again Prince Chichibu, who long ago had followed the example of Japan's national hero, Admiral Togo, by becoming a brother Knight. Lord Queensborough, in proposing the toast "Our Vice-Patron," said that Prince Chichibu had expressed to him his impressions of that amazing success which had attended the Coronation ceremony, and was as well aware as any of what the unity of the British Empire meant to the peace of the world.

Prince Chichibu, in reply, said his thoughts turned to the days of King Arthur. This time-honoured chivalry of England had its counterpart in the code of the Knights of Japan, known better perhaps as Bushido. Ever since it had been a constant inspiration to a nobler way of living, with its call to the courage, honour, loyalty, and courtesy of the youth of the nation.

The British and Japanese had many other characteristics in common besides their ideal of chivalry.

## RUSSIA TO AMERICA

### And Over The Pole!

Ottawa, June 11.

An early Soviet attempt at a non-stop flight from Russia to the American Continent via the North Pole is foreseen in a request from the Soviet Government for permission for a Soviet airman to fly over Canadian territory.

It is reported that the Canadian Government has granted the request.

In Washington it is revealed that a similar request has been received from the Soviet Embassy, and the State Department yesterday announced that it has granted the request for a Soviet airman to fly over American territory.

An attempt by a Soviet airman to fly to the United States via the North Pole failed in 1935 owing to mechanical trouble.—Reuter.

## ALL IN FAVOUR

London, June 11.

Commons agreed without division on the resolution moved by Mr. Hudson, secretary of the Overseas Trade Department for raising the limit of export credit guarantees from twenty-six to fifty million pounds (sterling) and allowing the guarantees to remain in force until March 1950. Mr. Hudson emphasised that traders were taking increasing advantage of the scheme which the Opposition also welcomed.—Reuter.

as, for example, their tradition evidenced in this country only a short time ago in the grandeur of the ancient Coronation ceremony. He was confident that their two nations, resembling each other as they did in so many aspects of their national character, would be brought closer together and might thereby contribute further to the welfare and happiness of mankind.

Knight Vice-President, Serjeant Sullivan, K.C., submitted the toast "Our Other Guests," to which Sir Charles Sanders replied.

## STATE ENTRY INTO WINDSOR

### King And Queen Cheered By Crowds

London, June 12.

The King and Queen made a state entry into Windsor this afternoon. They drove from Buckingham Palace to Eton where Their Majesties were received by the Provost, Lord Hugh Cecil and fellows. After the presentations the King and Queen, who were accompanied by the little Princesses, entered the State landau drawn by the famous Windsor Greys and proceeded to the Queen Victoria Statue in Windsor where they were received by the Duke of Gloucester as High Steward of the Borough.

All along the route from London Their Majesties were cheered by large crowds which had gathered and the streets of Slough, Eton and Windsor itself were densely packed by citizens and visitors who began to assemble early this morning. The school children of Berkshire were given a special place to view the Royal procession near the Frogmore entrance to the great park.—British Wireless.

## Coronation Art-Gallery Crowds

An increase in the number of visitors at the National Gallery and the National Portrait Gallery on Whit-Monday compared with last year does not indicate that the public is growing more aware of its artistic treasures.

This in spite of the fact that the figures—10,139 for the National Gallery as against 6,574 in 1936 and for the National Portrait Gallery 5,024 as against 2,322—do not tell the whole story. Since Whit-Monday last year was cold and rainy fewer, rather than more people should normally have visited these Galleries this Whit-Monday.

A spill-over from the Coronation crowds, which were specially dense in Trafalgar-square, is the explanation with which Mr. Kenneth Clark, the National Gallery director, will agree, writes a Home correspondent.

The Coronation also affords the key to the only other increased attendance at any London museum.

## LAWN BOWLS LEAGUE RESUMES AFTER RAIN

### Craigengower Just Manage To Beat Kowloon Docks

#### RECREIO MAINTAIN RECORD

After a hold-up of two weeks owing to heavy rains, Lawn Bowls League matches were resumed on Saturday when a full programme was played.

Visiting Hunghom, the champions in the Senior Division, Craigengower C.C. only just managed to come away with full points in their match against the Kowloon Dock Recreation Club. By defeating the Hong Kong Football Club, the Club de Recreio maintained their 100 per cent record.

Among the skips, honours of the day went to W. S. Drake who carried off the honours with a win over J. S. Riddell by 33 shots. The Police skip scored singles at six ends.

Full results were as follows:—

## LOCAL BASEBALL LEAGUE

### Filipinos Lose Two Matches

The Hong Kong Baseball Club defeated the Filipinos by the odd run in seven when they met in their League Baseball encounter at Caroline Hill yesterday.

M. el Arculli (Filipinos) ably filled the position as pitcher, and was successful in keeping his opponents blank for the first three innings.

The Filipinos took the lead in the second innings, having failed to score any in the first, when they made one run, but were unable to add to their total in the face of skilful pitching by R. McCall, until the fourth and seventh innings when they added one run in each.

The H.K. Baseball Club were blanked out for the first three innings. In the last three innings they added four runs which gave them a narrow victory.

Bad fielding on the part of the Filipinos was contributed factor to their losing the game. Towards the close of the encounter, they made several costly errors.

VOLUNTEERS BEAT CHINESE  
The Volunteers went further ahead in the Hong Kong Baseball League when they defeated the H.K. Chinese at Caroline Hill on Saturday by the odd run in nine after an extra innings had been played.

For the winners D. Leonard was outstanding in the field. Playing deep at short stop, he covered more than his share of territory and brought off several good catches. Other good fielders were Hussain and Wing Lee.

Of the Chinese team W. Ching, the pitcher, played an exceptionally good game. Together with Maddy Chang, catcher, they blanked out many of their opponents.

W. LAWSON BUTT  
Mr. W. Lawson Butt, well-known local sportsman, is in the Colony at present on vacation having arrived from Shanghai last week. He will be returning North in about a fortnight's time.

## TENNIS TREAT FOR COLONY

### Von Cramm To Visit Here

A rare treat for Colony tennis enthusiasts will be provided in October when Baron Gottfried von Cramm, the world famous German tennis player and runner-up to the Wimbledon title for the past two years, visits Hong Kong.

Von Cramm will be accompanied by his Davis Cup colleague, H. Henkel, who recently defeated H. W. Austin in the French Tennis Championship final. Vivian McGrath and John Bromwich, the Australia Davis Cup players, will also be present.

It is also likely that two well-known Japanese players, Tsuruta and Kuroshima, will play here.

This opportunity of seeing these players in action in Hong Kong, if matches can be arranged by the local Tennis Association is made possible by the enterprise of the Japanese L.T.A. who arranged for their visit to the Orient and the Philippines L.T.A. who have invited them on to Manila.

Von Cramm, Henkel, McGrath and Bromwich will play a series of matches in Japan in September and will leave for Hong Kong and Manila in early October.

## SENSATION IN COUNTY CRICKET

London, June 11.  
A major sensation marked the County Cricket matches just concluded, the hitherto undefeated Yorkshire team which, prior to this match, easily led the Championship table with a percentage of 90, were well and truly trounced by Middlesex. Yorkshire had first lease of the wicket and compiled 218 runs, J. Smith, 6 for 75, bowling very steadily. Obtaining a lead of 153 on the first innings, Middlesex, thanks to some further brilliant bowling by Smith, skittled out the powerful Yorkshire batsmen for only 131, to win by an innings and 22 runs. Derbyshire, the champions, returned to form with a fine win over Hampshire at Southampton. George Pope, who captured 5 for 34 in Hampshire's first innings being chiefly responsible. Undoubtedly the finest individual effort was Paynter's mammoth score for Lancashire against Essex, which enabled his team to win by an innings and 212 runs. Paynter, who has been batting excellently this season, and is freely spoken about in Home cricketing circles as the logical partner for Barnett in opening England's innings in future Tests, amassed no fewer than 256, the biggest individual total of the season. Hammond again! This brilliant cricketer was again to the fore with a fine performance against Sussex, when he scored 160. **SUSSEX WIN** Despite his effort, however, Sussex, who have a very well-balanced team, could not be held, and they registered another victory. They have not lost a match to date. In the remaining county matches, Surrey won narrowly against Somerset, Glamorgan beat Notts on the first innings, and Warwick beat Leicestershire. Wins for Cambridge and Worcester over Northampton and the New Zealanders, respectively, featured the friendly games. Results as cabled by *Reuter* were:—

## AGRICULTURAL COUNCIL

London, June 11.  
Australia's proposal for establishment of an Empire Agricultural Council is not favoured by the Imperial Conference committee for economic questions, whose report was issued yesterday. The committee expressed the view that the Imperial economic committee seemed to be well qualified to meet most of its proposed functions. The report of the committee under Mr. Havenga (South Africa) includes a resolution expressing high appreciation of the work of the Imperial economic committee, noting the success which attended its operations, and its continuance is proposed with the addition of a representative from Burma. It is further proposed that for the next five years, funds available to the committee should be increased from £20,000 to £22,000 annually.—*Reuter.*

## H. K. STOCK EXCHANGE

## YESTERDAY'S OFFICIAL QUOTATIONS

The appearance of the market was somewhat brisker this morning, with enquiry continued for investments, and a rather better enquiry in the speculative section. Hotels and Cements were asked for at \$7.15 and \$15.15 respectively.

Easier sterling exchange was reflected in an advance in the buyers' rate for Banks to \$1965. Unions were sold at \$6271.

Manila advices were fairly steady, rates as a whole being unchanged.

## WORLD ECONOMIC CONFERENCE IN THE AUTUMN?

## Possibility Discussed In The United States

New York, June 11.  
Prospects of a world economic conference in the late autumn or early in 1938, in conjunction possibly with a disarmament conference, are being discussed in view of the imminence of the arrival of M. van Zeeland, the Belgian Premier, on a special economic mission.

The ostensible reason for M. van Zeeland's trip to the United States is the conferring of an honorary degree by Harvard University, but most of his time will be spent in Washington, where interviews have been arranged with President Roosevelt and Mr. Cordell Hull, M. van Zeeland having accepted, at the request of the British and French Governments, the task of determining whether the time is fortuitous for the calling of a world economic conference.

Already the Belgian Premier has had the benefit of long talks with British, French, Dutch, German and Italian Government economic experts, and it is understood that he has the benefit of an official memorandum on the decisions reached in London at the Imperial Conference, and the London reaction to the American suggestion that trade negotiations now proceeding between London and Washington should be as between the United States and the Empire as a unit.

## TRADE PREFERENCES

Despite the clear statement in the House of Commons this week by the Chancellor of the Exchequer, Sir John Simon, that Imperial Preference will remain inviolable and that the United States has not sought abandonment, some relaxation of the Imperial trade preferences and a retreat from the British whittling away of the most-favoured nation clause in other countries are urgently hoped for. A relaxation in Imperial preferences is related to the proposed Anglo-American trade agreement. In Washington, a somewhat discouraged State Department seems to have concluded that no progress can be made in the face of the present British preferences. Some concession would help the American farmer and fruit grower in the British market. It might then be politically feasible to lower Ameri-

can tariffs on goods that Britons could supply in return for like concessions by Great Britain.

## ANGLO-AMERICAN PACT

Such is the argument that for weeks one has heard in the capital. It must not be thought, however, that the Secretary of State limits his vision to an Anglo-American Agreement. What has disturbed the State Department equally with the Empire preferences is the damage to the most-favoured-nation clause which has been done by the British brand of bilateral trade agreements. Thus an agreement between Britain and America would be used as a notable means to an even greater end—a means to a revived world trading system based upon the forgotten principle of "A fair deal to all favour." To the Cobdenite Mr. Cordell Hull such a policy would preserve the democracies from war without and from danger to their free institutions within.

## LAST PHASE OF INVESTIGATIONS

Those who rally round Mr. Hull include many Republicans, as well as old-fashioned Democrats who think of his policy as the antithesis of the President's economic philosophy. Such an opinion is based upon the view that freer foreign trade is a safe-guard of freer trade at home.

M. van Zeeland is expected to stay in Washington for four or five days. This is virtually the last phase of his investigation and on the results will depend whether invitations are issued to a new world economic conference.—

## "PROSPERITY AND DEPRESSION"

London, June 12.  
The League Secretariat has just issued "Prosperity and Depression," a treatise in 400 pages by Gottfried von Haberler, the well-known economist. The work is a theoretical study of economic cycles and examines the alternative periods of prosperity and depression.—

## GERMAN ADMIRALTY YACHT

Field-marshal von Blomberg sailed in the new German Admiralty yacht—the opposite number to our Enchantress—when he returned to Germany.

The German Enchantress is called the Grille (Grasshopper) and was launched as recently as 1934. She is 2,500 tons and a beautiful vessel with the lovely lines of a private steam yacht.

Like the Enchantress, however, she is not built for pleasure alone. She is armed with three 4.1-inch guns—the Enchantress has four 4.7s—and six light anti-aircraft pom-poms.

## NIGHT STAR

The Night Star, of the Star Ferry Company Limited, which sank as a result of a collision with the Meridian Star on April 14, will be re-commissioned by the Hong Kong and Whampoa Dock Company shortly and will be back on her normal cross-harbour ferry service shortly.

She is extremely comfortably provided with plenty of cabins. So the Field-Marshal and the other members of the Delegation who are accompanying him should, given anything like decent weather, have a pleasant crossing.

## ANOTHER ARMED ROBBERY

### Shauiwan District Affair

About a week ago no fewer than ten men were arrested being suspects of the three or the many armed robberies which occurred within the course of the past few months. In spite of this thorough round-up by the police another armed robbery took place about 3 a.m. yesterday in Shauiwan district, when three men armed with knives attacked the occupants of the house and bolted with money and articles to a total value of about \$11. The plucky attempt of the occupant together with the assistance of the neighbours resulted in the arrest of one of the three alleged robbers.

According to a report made to the police by Chan Kam, aged 38, coolie of the Talkoo Dockyard, who resided at an unnumbered hut near Tai Foo Street, Shauiwan, he was asleep when suddenly he heard the shout of "save life." He tried to get up to investigate the cause, but was forced down on to his bed by a man. At the same time he saw his wife was struggling with another person, while a third man was keeping watch outside the hut. A struggle took place between the complainant and the intruder who had tried to hold him down on to the bed. Eventually the commotion roused the neighbours who rushed to his assistance and arrested one of the men, while the other two made good their escape. After the incident Chan realised that his purse which contained \$10 and some articles had been stolen.

The two men who escaped were reported to have worn masks. They escaped towards the hill above Tai Foo Street.

## LINKING OF NAVAL FORCES

(Continued from Page 1)

In the Pacific. These, it is believed, include the reinforcement of the China Squadron with capital ships as soon as the progress of the rearmament programme releases vessels now serving with the Home and Mediterranean Fleets.

The defences of Hong Kong are to be modernised, but Singapore will be the principal base of the future Pacific fleet. When this has been organised it will be joined from time to time by ships of the Australian Navy and the New Zealand Division, for combined training.

A considerable expansion of the Australian Navy is foreshadowed. At least one division of destroyers, together with a small cruiser as flotilla leader, will shortly be laid down. New cruisers will be ordered in Britain as soon as the financial situation permits. All the principal ports of the Commonwealth are being re-fortified, and important naval works are planned at Port Darwin, the northernmost base.

It is hoped that the New Zealand Division will be strengthened in due course.

South Africa does not, it is understood, propose to extend its present commitments.

Some of the Dominion delegates—chiefly those from Australia—have sought information on the future security of the Empire's strategic routes through the Mediterranean and the Red Sea, in the light of foreign naval expansion in those waters.

I gather that they were reassured on this point. In naval circles no doubt is felt of our ability, by combined naval and air operations, to safeguard these routes when the rearmament programme has matured.

## DOJIMA MARU INQUEST

Opens This Afternoon

A special jury will sit with Mr. W. Schofield (Clerk) on the DOJIMA MARU disaster inquiry which opens at the Central Magistracy this afternoon. In the form of an inquest concerning the death of a Chinese member of the crew, the hearings of which are expected to occupy every afternoon this week. Japanese experts, sent to the Colony by the Japanese Government, to investigate the disaster will, it is understood, attend the inquest in the capacity of observers.

## BISHOP'S EPISCOPAL CONSECRATION

(Continued from Page 1)

Precious Blood was blessed by him; last Sunday the new Carmel was inaugurated; last Monday the corner stone of the new Church in Kowloon City was solemnly laid, and to-day again is a new temple which is erected to the greater glory of God. Mgr. Valtorta was the first missionary to enter Tai-O many long years ago; to-day he returns there to reap the fruits of his first labours; over 150 Catholics and two churches are in the Island. It is God Who evidently blesses our Bishop and the progress of the Catholic Church in this Vicariate.

### NEW CHURCH

The boat arrived at Tai-O at 9.30 a.m. and by 10 o'clock all the pilgrims were assembled in the New Church where Bishop Valtorta celebrated low pontifical Mass in the midst of the warm enthusiasm of the faithful. The band of St. Louis Industrial School which was in attendance and the choir of the Seminary rendered selected music.

### 28 CONFIRMED

After the religious service was over the faithful dispersed to visit the characteristic Island of Lantau, only to return at 1 p.m. to the new Chapel where again Mgr. Valtorta conferred 28 confirmations to newly-baptised Catholics and imparted the benediction of the Blessed Sacrament.

Late in the afternoon Mgr. Valtorta accompanied by all the pilgrims returned to Hong Kong where he was warmly greeted by all the pilgrims who had much enjoyed the excursion and the celebration.

Among the pilgrims were: Dr. J. J. Sherry, Mr. L. A. Barton, Mr. H. Dixon, Mr. Childow, Rev. Fr. Maestrini, of St. Teresa's Church, Rev. Fr. Gallagher, Rector of Wah Yan College, Rev. Fr. Guaroni, Director of St. Louis Industrial School, many representatives of the Fathers of Paris Foreign Mission, and of the different organisations of Catholic Action from St. Teresa's Church, the Catholic Cathedral, and other minor Catholic churches.

The boat was flying the Papal Colours with the badge of Chinese Catholic Action.

### BISHOP'S CAREER

Mgr. H. Valtorta was born of a distinguished family at Carate Brianza near Milan in Italy in 1880. In his childhood he joined first the local Seminary and, when a theologian, the Pontifical Institute for foreign missions. Soon after his ordination as a priest he came to Hong Kong where he was destined to work among the Hoklo people in the Hoiwang district.

His excellent qualities were soon made known and after he had spent a few years among the Hakkas in Wai-chow district he was called by Mgr. Pozzoni to work in Hong Kong where he was appointed to several churches and finally was Rector of St. Margaret's Church.

### APOSTOLIC DELEGATE

In 1924 he was chosen by Mgr. Constantini, then Apostolic Delegate to China, as his personal secretary for the great Council of Shanghai where all the Bishops of China were present. After the Congress he was appointed to bring to Rome the acts of the Congress and on his return, after the death of Mgr. Pozzoni, he was made Bishop of Hong Kong.

Realising the importance of this Colony he asked several Congregations to assist and to co-operate with him; the Jesuit Fathers, the Salesian Fathers and several Congregations of Sisters were thus invited to work in the vicariate which is entrusted by the Holy See to the Fathers of the Pontifical Institute of foreign missions.

## COLONY WATER RETURNS

(Continued from Page 1)

Consumption totalled 406,230,000 gallons. Tylam Tuk was 41 feet 4 inches below overflow.

Mainland storage totalled 1,190,000,000 gallons compared with 998,000,000 on May 1, and 321,000,000 gallons a year ago. Kowloon consumption totalled 305,000,000 gallons and the mainland contributed 122,21 million gallons to the island supply.

Jubilee Reservoir was 71 feet below overflow.

During last month a 15 hours supply was given to all districts on the Island with the exception of four days (May 11 to 14) when a constant supply was given on account of the Coronation celebrations.

In Kowloon a constant supply was given to all districts during the whole month.

The total rainfall recorded by the Royal Observatory from January 1 to May 31 was 19.90 inches as compared with 19.15 for the corresponding period last year.

## RIFLEMAN THROWN OFF CYCLE

Rifleman Connaghan of the Royal Ulster Rifles was the victim of an unusual accident while riding a bicycle near Argyle Street at 6.30 p.m. yesterday.

Owing to one of the nuts holding the front wheel dropping off, he was thrown over the handle bar and was lying in a semi-unconscious condition among a crowd when Det.-Sergt. Headridge fortunately came on the scene. He was taken to the Mongkok Police Station and from there to the Kowloon Hospital. The Rifleman had received a nasty knock on the head in the fall.

The bicycle was a hired one and it is likely that the owner will be held to blame for the mishap.

## COLLISION IN HARBOUR

A collision between a sampan and steam launch was reported to the Water Police authorities on Friday by Leung Sai, aged 40, mistress of the sampan.

It was stated that while the sampan was proceeding to the typhoon shelter, a launch, the Mikke of Mitsui Bussan Kaisha, Ltd., collided into the stern of the boat.

Leung, her daughter Ho Ng-mui, aged 17, her son Ho Kam-sing, aged 10, and a relative were thrown into the water as a result of the collision. A seaman on board the launch at once jumped into the harbour and rescued the son, while the others were saved by other seamen.

The boat was then levelled and towed back to the Yau-mai Ferry Wharf, from where the people concerned were sent to the Kowloon Hospital for the necessary medical treatment. They were discharged shortly after treatment.

Only property, and money to a total value of \$25 were reported lost.

## STREET DEATH

The body of a Chinese, who had the appearance of a street coolie was removed to the Kowloon Public Mortuary yesterday. The coolie suddenly collapsed while walking along Shanghai Street.

He was taken to the hospital which is entrusted by the Holy See to the Fathers of the Pontifical Institute of foreign missions.
